Grand Baie, Mauritius

SUMMARY

Proficient, dedicated, and highly motivated junior software developer specializing in the development of Mobile and Web Full Stack Applications. Passionate about leveraging modern software and with a keen attention to detail. I possess comprehensive expertise in both Back-end (Server-Side) and Frontend (Client-Side) application programming. Specializing in JavaScript, Typescript and Java, leveraging modern frontend frameworks such as Angular and React, and backend frameworks such as NodeJS and SpringBoot.

Possessing exceptional communication and interpersonal skills with a proven ability to work collaboratively in different environments to achieve high quality results within set timelines.
